# Our Opinion

CONSULT OUR MAP

*With an average of over 2200 hours of sunshine and less than 60 days of rain per year, the sun shines on Provence all year round.*

*However, as soon as a few drops fall, we're quickly caught off guard and run out of ideas... But don't panic! L'Atelier has found the best places to enjoy your stay, even in the rain!*

*A selection of 20 activities awaits you in this new WhatToDoWhen.*

*But be warned, there are plenty of other ideas out there. So don't hesitate to ask us.*

## Spa at the Auberge de Cassagne

The Spa is located on the other side of Avignon, in a 5\* hotel, and outside guests are welcome to enjoy the Spa (or treatment) for 3 hours afternoon (hammam, Heated pool, etc).

## Spa Ventoux Provence

If there's one place you want to relax, it's at the foot of Mont Ventoux. Unlimited access to the baths (jets, hammam, sauna, salt grotto, outdoor jacuzzi) at a reasonable price. You can top it all off with a treatment and a bathrobe lunch.

## Massage at The Graal

You couldn't be closer to the hotel; Le Graal is just 100m away. Olivier is a practitioner of genius. We recommend "Access Bars", a massage involving 32 cranial points, inviting you to let go.

## Salon de Thé de la Mirande

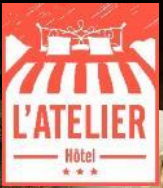

If you like the Hotel de l'Atelier, you'll love relaxing in the 17th-century salons of the Mirande (3pm to 6pm): a comforting trip back in time guaranteed! All this, with a prestigious selection of teas.

# Culture

*Carrières des Lumières:* A must whenever you need shelter (rain, heat, wind). It's immersive, it's beautiful, it's original, it's unique.

*Grotte de la Salamandre:* One of the most beautiful caves, 1 hour's drive away. A magical cave, with a memorable guided tour and the chance to fly in an aeroplane. A dream comes true!

*Château de Tarascon:* I talk so much about it, you're bound to know it. Visit and revisit!

*Savonnerie Marius Fabre:* Learn all about the traditional recipe for Marseille soap.

*Seaquarium:* A moment of comfort, in the company of seals and sharks. We also learn a lot about the marine world.

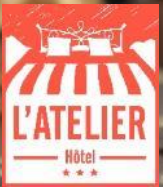

*Crocodile Farm:* A warm and welcoming place, despite the thousands of crocodiles, and a real change of scenery.

# Gastronomy

**Chocolaterie Castelain:** Its main attraction, apart from the quality of its sweets, is its range of workshops (children, family, adults, molding). Reservations required.

**L'Angle des Bières:** A place to meet up with friends over a good beer, whatever the weather. A wide selection of beers and charcuterie boards make for a convivial atmosphere.

**Musée de La Truffe et du Vin:** The main attraction of this venue is its restaurant, with a splendid view over the gardens. Store selling 170 wines and truffle products.

**Mas des Tourelles:** Are you familiar with Roman archaeological wines? It wasn't my case. Producing wines as the Romans did is the challenge taken up by this Costières estate.

**Bastide de Laval:** Tasting and guided tour at 10:45 am, daily. Elysée olive oil, no less!

**Cooking classes at Les Halles:** An ideal place to shop and a dedicated chef to spend a fulfilling and convivial time.

## What To Do When

Ploc, Ploc... it's raining!

### Bowling du Pontet

If there's one place where you always have a great time with family and friends, it's at the bowling alley. The more it rains, the more the atmosphere soars. A beer, an aperitif and billiard tables complete the picture.

### Montplaisir Laser Game

Here's an activity where laughter, fun and conviviality are the order of the day. Everyone can play, and the concept is quickly understood. You're hit, nothing serious, the game goes on. An opponent has just scored. The reception team is top-notch!

### TimeXperience

Without doubt the best Escape Game in Avignon, with highly immersive, well-crafted scenarios. Special mention for the "Crazy Saloon" room, set in the world of the Far West. I'm a big fan!

### Game Room

An innovative concept based on interaction with an animator. It's a cross between an Escape Game and Survivor. You choose between 2 formulas: either the Squid Game in a fun, competitive game mode, or in a more psychological mode with the presence of the Joker.
